comes to advancing in your studies. Basic sentence structure is also dealt with in the book. Learn how to form longer sentences correctly. Too many learners are writing in distorted English due to a direct translation from their own language. Begin to become familiar with sentence patterns in order to improve writing and speaking skills. The book also includes plenty of grammar exercises for those of you who like to freshen up on grammar. describes standard literary English—the forms that mark writers and speakers as educated users of the language. He also offers historical context for understanding the development of these forms. The section on grammar explains how the canonical parts of speech came to be identified, while the section on syntax covers the nuances of sentence patterns as well as both traditional sentence diagramming and

The result is a landmark resource that will offer clear guidelines to students, writers, and editors alike.
