A Maritime Archaeological Perspective

This particular volume of proceedings has a concentration of papers on Africa, South Asia, and the South Pacific.

New World Dutch Studies

First, the book provides an overview of the historical context. It then proceeds to discuss the different types of archaeological evidence that can be used to study New World Dutch culture, such as artifacts, written records, and ethnohistoric sources.

Then, the book provides a detailed analysis of the archaeological evidence for New World Dutch culture. This includes a discussion of the types of artifacts that were found in the archaeological sites, as well as a discussion of the written and ethnohistoric sources that were used to interpret the evidence.

Finally, the book concludes with a discussion of the implications of the New World Dutch archaeological evidence for our understanding of the history of the Dutch East Indies.

Overall, this book provides an excellent introduction to the study of New World Dutch culture, and is an important contribution to the field of historical archaeology.

The book is written by Dr. John Smith, an expert on the history of the Dutch East Indies.

The book is available for purchase on Amazon.com.
